But the Sanctioning Authority
Question leads us to quite
a different class of
institutions and from the
very nature of the diseases
which it is intended to
cure, it had to be
Constructed outside the

In accordance with the general principles enunciated in the Standing Orders put up, it would perhaps be desirable to fix the maximum free allowance in the case of this institution and any water used in excess should be charged for and such charges should be paid by the Medical Department.

The Chief Engineer, Irrigation, will be consulted, if approved.
